How to use this catalog...

(and other pertinent info)

Dear Friends,

Welcome! We hope you'll find this latest catalog as fun and inspiring as we do – it's our biggest yet! In addition to an amazing selection of yarns and fibers you'll also find dozens of new books, patterns, tools and tips to help you create any project you can imagine!

The *Table of Contents* groups the yarns by weight and then alphabetically by yarn within each box. We've also listed our three digit item number, an abbreviation for the specific gauge, the primary fiber content, and the page number.

We're featuring lots of patterns and books for every yarn and we hope you'll enjoy our suggestions. We've checked them carefully, but please don't "hurry up to go slow" – do a swatch and test your gauge or sett before you commit! If you don't see what you're looking for take a look online at www.halcyonyarn.com. There you'll find lots of additional suggestions for each yarn as well as over 700 patterns and 1,200 books and magazines! We're happy to guide you through finding just what you need. Give us a call or email us and you'll find helpful answers to all your questions!

Inside the back cover you'll find a pattern for stitching up a beautiful mock cable knit scarf using Malabrigo Merino (*see pg 49*) or any worsted weight yarn.

Need help ordering, calculating yardage, returning an item, or any other knitty-gritty info? You'll find plenty of answers, as well as an order form, to mail or fax, on pages 42 – 44.

A gift from Halcyon Yarn is always a welcome treat and we offer Gift Certificates in any amount. If time is short we can email a copy to the lucky recipient when you place your order!

Are there more ways we can be of service to you? Just let us know! We love to receive your feedback and we're always looking for new ways to make your Halcyon Yarn experience the best anywhere!

Most of all... THANK YOU! It's YOU – our wonderful and endlessly creative customers who make every day such a pleasure here at Halcyon Yarn

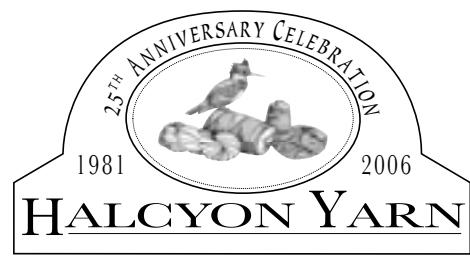

Sincerely,

P.S. This year marks our twenty-fifth year in Maine and our thirty-fifth year in business! Special thanks to all of you who've been with us since the start – here's to thirty-five more!

Casco Bay Signature Line

7 styles, 31 color ways...

Item 98 - Casco Bay Sport

The soft, subtle texture and mellow colors of our Casco Bay Sport and Worsted Cottons will be a welcomed addition to any weaver's or knitter's palette. And it's washable, making it ideal for easy care children's sweaters and baby blankets. The tiny criss-cross binder gives just a hint of elasticity so welcome in knitting and crocheting with cotton. Weavers can use Casco Bay Cottons alone in warp and weft or in combination with many of our other fine yarns. Consider it as pattern weft in overshot or summer and winter patterns. It's also an interesting weft for warp-face weaves.

Keep in mind with our entire Casco Bay line that when working with bold or highly contrasting colors we suggest sampling and testing for color fastness. It is not uncommon for excess dye to be present in strong colors. If bleeding occurs, skein the yarn, wash it until the water runs clear and let it hang dry.

KNIT & CROCHET

Substitute cotton chenille in your favorite worsted weight patterns.

WEAVERS

- As weft, use either alone or as pattern in an overshot with 3/2 or 5/2 Pearl Cotton.
- Alternate chenille with a smooth yarn in a contrasting color for great looking log cabin
- If used in warp tame your fringe ends by twisting, braiding, hemming or binding the edges with ribbon to avoid unraveling.

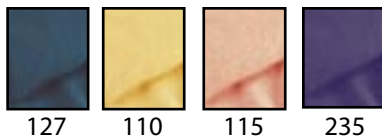

Casco Cottage Chenille Throw

Kit includes 2 lbs. of bulky cotton chenille, 40" size #9 circular needles, and the pattern. Finished size 36" x 52". Available kit colors: White (101), Natural (102), (not shown) Mallard (127), Yellow (110), Peach (115), and Deep Periwinkle (235).

KNITTERS

Stylish yet casual, Block Island Blend makes beautiful, light weight, warm weather clothes; knit a dressy sweater or a comfy weekend pullover. Single stranded, Block Island Blend knits as a fingering yarn; when doubled it becomes a sport weight. Machine knitters, try a tension of 7-8 on standard machines.

WEAVERS

Block Island Blend is well suited as both warp and weft. Consider combining it with many of our other wonderful cottons and linens. It is an excellent choice for drapery, table linens, and yardage for clothing or upholstery.

General Notes: The true characteristics of Block Island Blend are best seen after hand or machine washing on the gentle cycle and machine drying. Plan on 10% shrinkage when calculating the amount of yarn you need. As always, we recommend sampling before you start your project.

Knitting Nature

Norah Gaughan

Graceful natural forms guide the stitch patterns throughout this inspiring book. The Phyllo Yoke Pullover (left) is based on the spiral arrangement of seeds in sunflowers or pinecones. A perfect pattern for knitting with Block Island Blend, double-stranded. (Uses approx. 2-3 Lg Cones of Block Island Blend.)

Soft & Delicate...

Item 255 - Misti Alpaca Lace

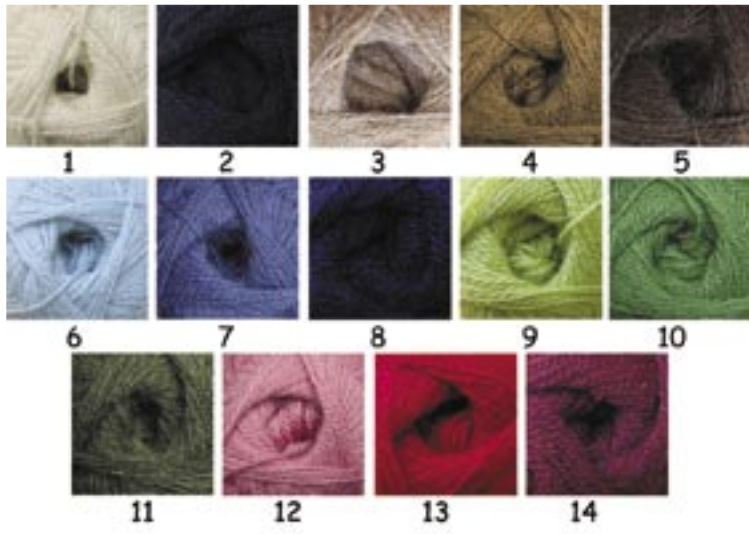

Create a beautiful knitting experience with this wonderful lace weight yarn. This Peruvian baby alpaca has a softness and drape that are extraordinary. And the smooth, velvety texture is perfect for highlighting lace stitches.

Weaving Yarn Tip: a little trickier to use in warp because of the loftiness and bounce. Fine in weft, or alternate in warp with something less stretchy such as Jagerspun 2/8 to give it a base. Remember, any yarn with caution can be used for weaving.

An Ethereal Touch

Lace & Fingering

Item 56 - K1C2 Douceur et Soie

- baby brushed mohair creates a soft, heavenly halo
- silk makes the binder shine
- blended fiber combination looks and feels wonderful
- extra soft beside your skin

KNITTERS

You can use Douceur et Soie alone in lace patterns, or multistrand it with another yarn. When multistranding, the mohair will soften the hand of any fabric incredibly without changing the weight much.

CARE INSTRUCTIONS

Hand wash in cool water or dry clean.

Worsted
Great for Socks!

JaggerSpun Yarns...

These versatile, high quality, fine, worsted spun yarns have become staples for machine and hand knitters, weavers and crocheters. Made in Maine of soft, fine wools, these mothproofed yarns are luscious for clothing. As worsted spun yarns, they are smoother and more lustrous than woolen spun yarns, like Harrisville. They also won't full as much when washed and finished, so plan on a closer sett or tighter gauge (*finish your swatch in the same manner as you plan for the final piece to determine if you like the result*). Color lines are shown below with an x indicating available colors.

Elegant JaggerSpun wool silk blends are shown on page 35. Perfect for Knitters and Weavers they're available in two weights: Zephyr 2/18 lace weight or DK weight. Indulge!

WEAVING TIP
 To determine sett [EPI] from WPI (wraps per inch) use the following formulas for plain weave
 WPI + 2, for Repp (warp faced plain weave)
 WPI x 2, Balanced 2/2 twill WPI x .667

JaggerSpun Care Instructions: JaggerSpun yarns are dyed with the finest dyes possible and mothproofed for a long life. Excess dyes may be present in some colors so sample first. If excess dye is present, skein the yarn and rinse until the water runs clear. Dry cleaning is recommended, or handwash.

- Often used in combination with Cottolin or Newport Linen.
- Excellent choice as warp and tabby weft for overshot coverlets.
- For pattern weft, we suggest 2/8 Maine Line Wool, Harrisville 2-ply Shetland, Bartlett 2-ply sport weight, or Cotton Fine.

Allow for 15% shrinkage when calculating weaving yardage. Also beware of dissimilar shrinkage characteristics when combining with yarns of other fiber contents in stripes or plaids. Be sure to alternate threads of different fibers or use one as warp and the other as weft.

KNITTERS

- Double strand for sport weight gauge, triple for worsted weight.

Care Instructions: Be conscious of high contrast color combinations. If your sample suggests bleeding, pre-wash the yarn until the water runs clear. To limit bleeding in a finished piece do not allow it to remain damp for long periods of air drying; faster drying by machine is preferable.

*Sport Weight
Great for Knitting*

Luster, color, beauty and perfection. Halcyon's Gemstone Silks are as precious as their namesake minerals. Faceted stones with sharp lines sparkle. Woven fabric with highlights of silk shine. Polished stones reveal inner patterns of color and texture. Use silk to capture light and add dimension as well as unsurpassable strength!

Gemstone Silks are made of the finest Chinese silk fibers. Spun in Switzerland and dyed in the United States, these silk yarns meet the highest industry standards. Keep in mind that silk has almost no elasticity and minimal shrinkage. Silk will not full or "bloom" in finishing.

WEAVERS

Use a denser sett than used for wools since silk doesn't full.

KNITTERS

Ribbings probably won't hold their shape to your liking so use hems or similar edge treatments. Better yet, use a soft wool or wool/silk combination for ribbings. Be creative and do gauge swatches to find the best match-usually fingering to sport.

Softest Styles In Baby Alpaca...

Item 256 - Misti Alpaca Sport

Misti Baby Alpaca Sport is a wonderfully soft yarn in a weight that is perfect for vintage sweaters, scarves and hats. This fine, elegant yarn shows textures beautifully and the colors can be combined for classic Fair Isle garments. Misti alpaca sport is an affordable extravagance: long-wearing, warm and rich in color!

Weaving Yarn Tip: a little trickier to use in warp because of the loftiness and bounce. Fine in weft, or alternate in warp with something less stretchy such as Jagerspun 2/8 to give it a base. Remember that with a little caution, any yarn will work for weaving!

YARN**

- simple 2-ply designed for beauty and useability
- softness derived from a slightly softer spin in each ply with a softer twisting of the plies than in many woolen-spun 2-ply yarns
- will soften and loft up even more when washed or fullled
- a Halcyon Exclusive custom spun yarn
- coordinates with Victorian Mohair & Victorian Boucle – mixes nicely with a variety of other yarns

137-148 shown in Victorian Boucle.

101-118 shown in Victorian Mohair.

119-136 shown in Victorian 2-ply.

A beautiful plain weave blanket can be done on a simple rigid heddle loom – just mix Victorian 2-ply & Boucle in several shades!

WEAVERS

- use as warp & weft for shawls, scarves, blankets, and outerwear
- alternate warp or tabby weft with Victorian Boucle or Victorian Brushed Mohair for pattern in overshot or summer and winter

Weaving tip: If you're having trouble maintaining your selvages in balanced weaves, especially with a soft warp and light tension, try using a strand of Pearl Cotton as a floating selvedge. These threads can be tensioned more tightly than the rest of the warp to maintain width by adding a hanging weight, then pulled out before washing.

KNIT & CROCHET

- versatile sport weight yarn for hand and machine knitting
- low pilling adds to long life and durability
- especially nice in multi-color work

Knitting tip: Double-strand any two Victorian styles together on #10.5 needles at 3 sts/inch for a personal “designer” bulky yarn.

Scarf & Mittens on pg. 88

WEAVERS Use in warp, weft or both. Use tabby or other short float structures only. Keep warp chain under control with frequent choke ties. Finish with turned hem, twisted or braided ends, "loose ends fray away."

KNIT & CROCHET Treat as a DK weight yarn. Use a firm gauge of 5 to 5.5 stitches/inch on US 6 needles. For a nice touch use textured stitches like seed or moss. Rayon Chenille can be used on standard and bulky knitting machines.

Care Instructions:

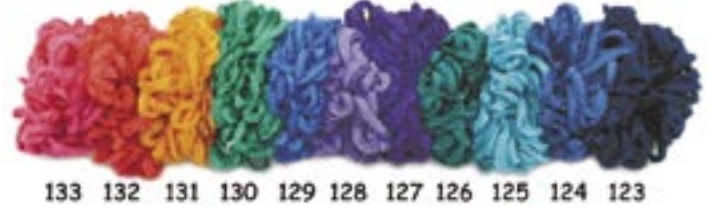

Rayon Chenille can be handwashed in cool water with a mild soap. Be sure to wet block your washed piece. When dry, air fluff without heat to restore texture and sheen. If in doubt, dry clean.

Item 128 - Cotton Fleece

Cotton Fleece and Cotton Fine from Brown Sheep possess a unique combination of two wonderful fibers. The softness and ease of cotton is coupled with the spring and elasticity of wool. Use the yarn for light and airy pieces with more rebound than you usually associate with cotton. Textured stitches hold beautifully because of the 24-ply cable structure, the broad color selection makes finding colors easy.

3 Great Heathered Wool Blends...

DK Sport

Harrisville Designs' 100% wool yarn is from a combination of Merino Cross wool from New Zealand and a softer wool from Australia. Harrisville dyes the fleece and then spins blended fleeces to obtain their extraordinary dyed-in-the-wool heathers or spins single colored fleeces to get bold, vivid solid colored yarn.

Fingering Weight!

- Great for lightweight blankets and shetland style sweaters.
- Wide color range makes Shetland an easy choice for pattern weft for overshot coverlets.
- Well-coordinated color choices, including subtle tweeds, are ideal for finer weight Turkish and Fair Isle knitting designs.

WEAVERS For overshot you can use a warp of Homestead Cotton or our 10/2 Pearl Cotton at 15 epi. For all wool fabrics and blankets, warp at a sett of 10 to 12 epi for a fabric with more drape after fulling.

Item 5 & 11 - Harrisville Highland

ITEM 5 & 11 - HARRISVILLE HIGHLAND - SKEINS & CONES

100% Wool ◊ 10-11 wpi ◊ 900 yds/lb

Sample Card 2300900c ... \$2.00

Item 5 - Scoured Skeins

- After spinning, this yarn is washed then reeled into skeins.
- Pre-washing makes yarn softer, loftier, & pre-shrunk.
- Suitable for weaving and machine knitting. Preferred by knitters.

Item 11 - Unscoured Cones

- Will shrink and full when washed. Allow 15% for shrinkage.
- Suitable for weaving and machine knitting.

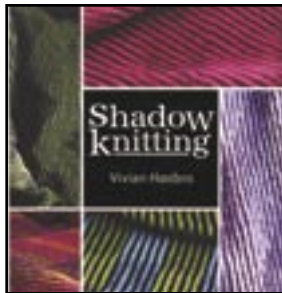

KNITTERS Harrisville yarns full and felt beautifully - have fun experimenting with felted knitting patterns from Fiber Trends.

WEAVERS Unwashed yarn contains more spinning oils and has an unfinished look and feel. It will full and felt beautifully and create weavings with rich subtly shaded colors.

Item#: 59540300 • \$21.95

Domino and Shadow knitting are deceptively simple techniques which have been popular with European knitters for several years.

Domino Knitting creates intriguing pattern blocks which build upon themselves and work well for portable projects since pieces are worked in small squares or strips.

Shadow Knitting alternates rows of dark and light yarn and stockinette/garter stitch to achieve subtle patterning which seems to appear and disappear depending on the angle from which it is viewed.

Each book includes spectacular projects from small accessories to sweaters.

WEAVERS Mix this yarn with the Superfine Merino, 2/30 Gemstone Silk, or Douceur et Soie. Worsted spun yarns won't full as much when washed/finished, so plan on a closer sett or tighter gauge. Finish your sample swatch to determine the look and feel of the finished piece. Care: Dry cleaning recommended.

KNIT & CROCHET Hand knitters may prefer multi-stranding Zephyr for larger gauges. Three strands equal a sport weight and five strands a worsted weight. The mini cones are economical and an ideal size for lace knitting projects. Many lace shawl designs can be completed with just 2 or 3 mini cones at a cost of around \$25.00.

A blend of Australian super fine merino wool and soft silk make this yarn ideal for luxurious items that can be worn next to sensitive skin. The wool/silk blend is warm for winter and cool in summer. Each fiber absorbs dye a little differently which gives a shiny, intense color. The sensuous texture of this worsted spun yarn is smoother than woolen spun yarns and won't full as much when washed/finished. Plan on a closer sett or tighter gauge and finish your swatch to determine if you like the finished look. JaggerSpun is dyed with the finest dyes possible and mothproofed for a long life. Excess dyes may be present in some colors so sample first. If excess dye is present, skein the yarn and rinse until the water runs clear.

Item 31 - Cotton Ripple

Add Ripple to your knitting, weaving, or crochet to add texture to your piece. You'll also find that the textured yarns work well alone for many projects, such as summer tops or hand towels. You can liven up the piece by dyeing the yarn before or after with dyes suitable for cotton. Expect 10-15% shrinkage when washed.

Care: Hand or machine wash.

Item 47 - Cathy

Cathy has a wide mix of different textures along its length, including slubs, bouclé, knots, and more. The resulting thick and thin sections create an interesting lacy look when this yarn is worked up at a loose gauge or sett. It also is a fabulous "knit or weave" together yarn with Pearl Cottons. Expect 10-15% shrinkage when washed.

Care: Hand or machine wash.

Worsted

This loosely spun cotton roving has some variation in thickness along its length. Due to its soft spin, it is not recommended in warps. Its fluffy nature makes it a welcome addition to baby blankets pillows, and other items that may be close to the skin. Whether knitting or crocheting it is a delight. Expect 10-15% shrinkage when washed.

Care: Hand or machine wash gently.

Lucy is a textured yarn made of a blend of cotton and linen consistently rippled along its entire length. The natural darker tone of the linen contrasts with the whiter cotton to create added visual effect. Expect 10-15% shrinkage when washed.

Care: Hand or machine wash.

Halcyon Yarn Signature lines dyed with Earthues dyes. (below)

Each collection will dye approximately 40 lbs. of wool, silk or cotton to a medium hue.

WEAVERS When weaving a worsted spun yarn, sett is particularly important because you won't be fulling the finished fabric as you would a woolen spun yarn. Your sett should reflect the warp spacing that you would like in your finished product. We recommend weaving a sample 6" wide at your estimated sett. Then finish the sample piece with a gentle washing, spinning, air drying and a good pressing while damp. You may want to weave a larger sample and have it commercially pressed after washing if you plan to tailor a garment. In figuring your warp length, plan an extra 10% on the warping board. Featherlight Merino is stretchy and will shorten when taken off the board.

- Distinctive pearl twist and worsted finish for visually distinct patterns.
- Soft hand for finer clothing fabrics, baby blankets, sweaters, and scarves.
- A customer favorite for standard gauge machine knitting.
- Mothproofed.

Elegant Adornments

Item 151 - Astra-Glow Metallic

WEAVERS: Use a little extra care when tensioning or advancing your warp.

KNIT & CROCHET: Strand one of these special metallics with your regular yarn, a chenille, pearl cotton, wool, mohair or linen... because anything goes when you're ready to shine!

Care Instructions: Due to possible differences in shrinkage, we do recommend a gentle hand wash or dry cleaning, but you can always be sure by making and testing a sample first! Touch-up pressing calls for a low heat.

SO MUCH TO DO, SO MUCH TO SEE, SO MUCH TO FIND AND NOT NEARLY ENOUGH HOURS IN THE DAY... LET US MAKE IT EASY!

We want to help make your fiber experience more fun, easier and efficient. In the information age that means more digitally accessible. So we will continue to improve our offerings in the digital world and the fiber arts world. You'll find our website easy to use, fun and informative.

At www.halcyonyarn.com here is what you'll see first:

It's easy to navigate. If you've visited before and just want to know about what's new we provide updates highlighting new, exciting and noteworthy products as well as information about special pricing sales. Just click on "News".

Sign up for our e-mail list to receive announcements of news updates which occur about once a month.

IT'S EASY TO ORDER ON THE WEB

Enter the quantity in the box, pick attributes like color or size then click "Add to Cart" sending your item to your personal shopping cart. Once you've added all the items you want you can go to your cart, make any necessary changes and then proceed to check-out.

You can stop shopping for a while at any time, if you need to do something else. Come back within several hours and your cart will be waiting for you. Because our website is able to change daily (unlike a catalog which, because of cost, is limited to few times a year), Halcyon Yarn's website is the most up-to-date source for what you can find at your favorite yarn store even if you can't visit in person or call.

YOUR PRIVATE INFORMATION IS SECURE AND WILL STAY YOUR PRIVATE INFORMATION!

Many people are concerned about their valuable privacy and the security of their credit card information on the web. When you use Halcyon Yarn on the web to make a purchase, all of your personal and credit card information is entered through and stores on a secure server transmitting the information to us using 128 bit encryption. Our e-mail and postal mailing lists are used only by Halcyon Yarn to contact you or to send you information of interest. They are never sold or exchanged with anyone in any format!

CAN'T ALWAYS PLUG INTO THE WEB? SEARCH OUR EASY TO USE CD-ROM DATABASE OF OVER 1,500 BOOKS, PATTERNS, AND VIDEOS. PLUS COPIES OF OUR CURRENT CATALOGS.

Now, in addition to our web site you can have all this on a computer CD-ROM that has our yarn and equipment catalogs in PDF format plus a "kiosk" style book/video/pattern program (with files for Macintosh and for Windows). This program is an exciting development with a searchable database containing the almost 2000 books, videos, and patterns which we keep in stock. That huge number makes it impossible to put all of them in the catalog so this is the most practical way to tell you about them. It's complete and it's searchable, allowing you to look for books or videos by author, title, craft, or general description. The Pattern Search has the same capabilities plus the ability to search by yarn weight (e.g. DK), suggested yarns (e.g. Peace Fleece), gauge, warps per inch, and yardage needed.

We know that you will find our digital tools useful and enjoyable so relax and give them a try. Remember... at Halcyon Yarn a friendly voice is only a toll free call away - where a knowledgeable, "real person" wants to help you find the information you need.

ORDER BY MAIL: 12 School Street • Bath, ME, 04530

Fill out order form and mail with your payment. If you choose to pay by check or money order, you will have to estimate the cost of those items which are sold by the pound. We will bill the difference.

PAYMENT AND SALES TAX

We accept personal checks, money orders, and major credit cards. Payments must be made in US funds. If paying by check or money order, please be sure to include your customer number. It appears on the outside of your Sample Box, and on mailing labels and invoices.

Maine residents please add 5% sales tax. Sales tax is not charged on packages shipped outside of Maine.

GUARANTEE AND RETURN POLICY

If you are dissatisfied with any item or if we have made a mistake in taking, filling or billing your order, please fill out the form on the back of your invoice and call us right away at 1-800-341-0282. We want you to be happy with our products and with our service.

We request that returns be made within 60 days for a complete refund. Returns made after 60 days will be subject to a 15% restocking fee and receive store credit only. No returns on items purchased at bulk price 3 or on special order items. Items returned must be in original condition.

SPECIAL ORDER ITEMS

Special order items will be invoiced separately and shipping will be based on the dollar value. Please allow 6-8 weeks for delivery. There are no returns on special order items.

OUT OF STOCK ITEMS & BACK ORDERS

We do our best to keep items in stock, but unfortunately, at times back orders do occur. We will always inform you if an item is back ordered and are happy to help you find a substitution. Back ordered items will be shipped as soon as they are available at no additional shipping charge.

BIG TICKET ITEMS

We pay the surface freight up to \$125 on the following floor looms shipped to addresses within the continental US: Harrisville, Louët, Norwood and Schacht*. Offer excludes Loomcraft Looms**. Free shipping on LeClerc floor looms. If a loom is to be shipped to Alaska, Hawaii, Canada or overseas, we will pay up to \$125 to have the loom shipped to the closest US port.

*A residential delivery fee of \$37 will be added for delivery of Schacht Looms.

** A crating fee of \$35 will be added on Loomcraft Looms.

SHIPPING & HANDLING

Most orders are shipped within the same or next business day of the time we receive your order. Calculation Information for Knitters

These figures are meant to be used as a starting point. Knitters need to swatch, preferably with a swatch at least 4" square. A difference of half a stitch per inch can add up to an enormous size difference over a large number of stitches in coarser gauges. Not all yarns fit neatly into a category, but with adjustments to needle size you should be able to achieve the perfect gauge. See inside front cover for important information about yarn size and gauge.

Calculation Information for Weavers

Here's a simple worksheet we use around Halcyon Yarn to help people calculate basic yardage for woven fabrics. This is a good estimator for balanced weaves. Pattern wets will need extra but can be calculated by the same method. If this is too daunting though, don't despair. Just write, email, fax or, better yet, call to talk to one of our friendly staff who will be more than happy to help you with the math and planning. Please have basic information handy such as the size and number of project items you are planning plus an idea of the yarns you want to use. Special calculations apply for rugs which are best estimated by weight per square foot.

Estimating number and length of warps:

Plan the finished size of your project items _____ [such as 15" x 24"]
 Number of items _____ [such as 6 towels]
 Width of each -finished _____ [...15" after loom shrinkage and washing]
 Add 10 - 15% estimated shrinkage _____ [...10% = 15" + 1.5" = 16.5" on loom]
 Warps/inch or sett _____ [see setts for yarn and structure ... eg 12]
 Multiply sett by on loom width _____ [sett of 12 wpi x on loom width 16.5"]
Equals number of warps to be wound _____ [12 wpi x 16.5" = 198 warps*]
 Finished length plus any hems _____ [24" + 1.5" each end = 27"]
 Plus estimated shrinkage _____ [...10%=27" + 2.7" = 29.7" final woven]
 Multiplied by number of items X _____ [...6 items. So, 6 x 29.7"=178.2"]
 Plus your loom's waste factor + _____ [usually 27" to 36"]
Equals total length of each warp _____ [...178.2"+ 36" = 214.2"]
 Divided by inches/yard (36") = _____ [...214.2"/36" = 5.95 yds for each warp]
 Multiplied by number of warps X _____ [...See above. So 198 x 5.95 (6) yds]
Equals total warp needed _____ [98 x 6 yds = 1188 yds (so 1200 yds)]

Estimating weft yardage:

Width of each weft pick or shot _____ [equals final width above plus about
 5% for weft deflection = _____ (16.5" + .8" = 17.3")]
 Multiplied by the sett X _____ [this may be greater in weft than warp]
 Equals inches of weft per inch woven _____ [17.3" x 12 per in =207.6"]
 Divided by inches/yard (36") = _____ [207.6"/36" = 5.77 yds/in woven]
 Multiplied by length woven X _____ [** above = 178.2" in our example]
Equals amount of weft = _____ [5.77 yds/in x 178.2" woven = 1028 yds]

Affordable Luxurious Alpaca

Item 257 - Misti Alpaca Worsted

Misti Baby Alpaca worsted weight yarn is practically perfect! It's an affordable luxury yarn that is so soft, you can wear it next to your skin. Whether your projects are knitted or woven, the drape is beautiful, and the color range is sure to please!

Misti Alpaca is a wonderful family company now in its fourth generation in the alpaca business in the Peruvian Andes.

Weaving Yarn Tip: The loftiness and bounce makes this yarn a little trickier to use in warp. Fine in weft, or alternate in warp with something less stretchy such as Jagerspun 2/8 to give it a base.

Knit & Crochet

- corded appearance adds elegant finish to stockinette aran patterns
- customers rave about its ability to hold texture
- denser, with fewer yards per pound than a standard worsted weight yarn so decide how much you'll need based on yardage, not weight.

Weaving Yarn Tip

- Botanica is stretchy so when winding your warp on the board, add at least 10-20% extra to the length of the warp because the warp will shorten considerably when tension is released.
- When weaving, always release the warp tension before measuring the picks of your weft. If you measure with your piece under tension it will be inaccurate.
- Since worsted spun yarns do not full or bloom as much as woolen spun yarns, choose an appropriate sett and beat the weft as you want the finished product to look.

Did you know...

the Silk Road is one of the oldest trade routes in the world – an inhospitable region to the north of the Gobi desert. For thousands of years this passage was used for trading silk and other goods between China and Europe.

Our new Silkroad Aran from Jo Sharp is virtually identical to the Kathmandu Aran many of you love so much – with lots of great new pattern support we think you'll agree that this yarn goes the distance!

"Everyone that I've had dealings with at Halcyon is GREAT! How refreshing!"
– Robin C., Grove City, OH

Did you know...

Astrakhan originally referred to the soft and tightly curled fleece of karakul lambs. It was highly prized for its soft, nubby, boucle like appearance. Karakul sheep are among the oldest domesticated sheep breeds and are indigenous to Central Asia. We've made it easy for you to enjoy the lush Astrakhan look with this great Debbie Bliss yarn in several new colors!

Subtle Shades of Softness

Item 16 - Fusion

Soft, subtle shading for easy color variation in scarves, sweaters and hats. For luxurious mohair throws try Victorian Boucle (*item #163, pg. 58*) in the warp and Fusion in the weft. Looking for more knitting ideas? Try Fusion in your favorite bulky weight patterns.

Remember that due to the stickiness of mohair we recommend spacing the warp farther apart than normal tabby sett and using a ski shuttle.

Mohair has a very versatile gauge because the halo will let it expand or compress to suit a variety of styles while still maintaining its shape.

ITEM 16 - FUSION

64% mohair, 27% acrylic, 9% wool ◊ 12-14 wpi ◊ 1234 yds/lb

Item 118 - Alpaca Boucle

Few fibers compare with alpaca for softness, matched with affordability. Alpaca Boucle offers lots of soft and lofty texture for knitting, crocheting and weaving. Substitute it for any boucle and enjoy the beautiful blends of natural and dyed colors. It makes a soft surfaced texture as a weft and weavers who are gentle can use it in warp as well. Knitters and crocheters will love the results. Its loopy surface shows best in simple patterns where the major interest is soft color and texture as complex stitch patterns will not show.

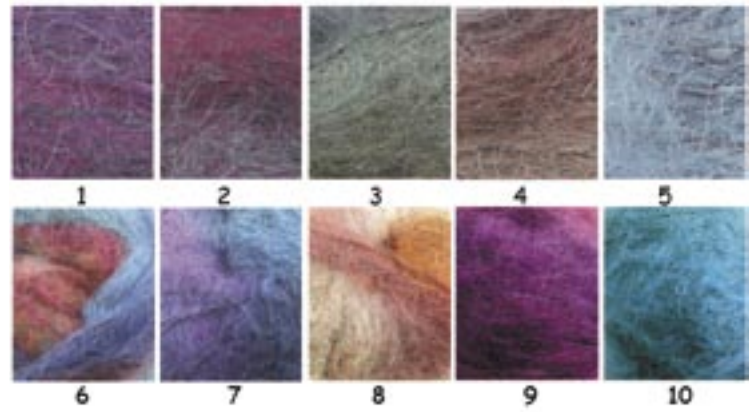

Care - Hand wash cool water or dry clean

Tried & True... Icelandic Lopi

Bulky

Item 19 - Icelandic Lopi

Care: Hand wash cool water or dry clean

- traditional Icelandic wool in a lightly spun single ply yarn
 - Lopi sweaters will keep you warm on the coldest winter days
 - a favorite for knitting oversize and felting
 - mothproofed
- Weaving Yarn Tip:
- suitable for weft but not warp since it is too loosely spun
 - also great for blankets, jackets, shawls, and wall hangings

Super Soft & Snuggly

Bulky

Item 78 - Firenze

KNITTERS

- silky, soft yarn that will knit up with the look of “fur”
- subtle color variations form a pleasing and varied palette without the blotches or stripes of some multi-colored yarns
- add textural interest to woven projects by mixing this yarn with other yarns in warp or weft

WEAVERS

Firenze may be used independently in warp with caution. Use a 4 or 5 dent reed to allow the fur to slide through. Simply Beautiful Scarf Kits are an easy and elegant Firenze project.

Ultra Soft Baby Alpaca

Bulky

Item 258 - Misti Baby Alpaca Chunky

With this plush, ultra-soft Baby Alpaca Chunky yarn, you will create the ultimate in quick knitted luxuries. This exquisitely soft yarn is heavenly to work with and whether a shawl, throw or sweater, your projects will be light and warm, with none of the density and weight of bulky wools. This yarn is absolutely irresistible to the touch! Weaving Yarn Tip: a little trickier to use in warp because of the loftiness and bounce. Fine in weft, or alternate in warp with something less stretchy such as Jagerspun 2/8 to give it a base. With a little caution and patience any yarn can be used for weaving.

Tabby: Use the 2, 3, or 4 ply warps doubled or tripled at 4 epi

Use the 5 ply single at 4 epi (5 epi with beater weights)

Twill: Use the 2, 3, or 4 ply warps doubled at 5-6 epi.

Use the 5 ply linen doubled at 4 epi or single at 5 epi.

Suggested Weft Amounts These weft allowances are adequate for a tight, firm weft faced weave.

Plain Weave: Allow 1-1.5 skeins per square foot

Twill & Boundweave: Allow 1.5-2 skeins per square foot.

RUG PUNCHERS & HOOKERS:

Allow 2 skeins per square foot. All of our Rug Wools work beautifully with Amy Oxford's punch needles.

KNITTERS & CROCHETERS:

Knit at 2.5 st = 1" on size 11-13 needles. Crocheters allow up to 2 skeins per square foot using 1-3 strands together with a size O or P hook.

Item 111 - White Worsted Wool Warps

2ply 3ply 4ply

Both natural grey and off white warps are available in 2, 3, and 4-ply styles. Worsted wool warps are suitable for any weft-face project including rugs, wall hangings, Navajo designs and tapestry. Because they are worsted wool they are both supple and very strong. For tapestries choose the 2 or 3-ply warp and set it at 6-10 ends per inch. Try Botanica (Item 15), Geo (Item 3) or Deco (Item 2) for the weft. Ethnic geometric designs also work well at this sett.

For weft faced rugs, use the 4-ply wool single, or doubled for extra body, at 4 ends per inch for tabby or 5-6 ends per inch for twill. For weft, you'll find every color you could want (almost) in Halcyon Rug Wool (Item 1). Deco and Geo (items 2 & 3) may also be used but double these yarns for a good weave.

Linen Warps

These are traditional warps for Scandinavian style rugs such as rya and krokbragd and for many styles of tapestry. Linen warps are stiffer than wool warps and give more body to your finished piece. Use the 2, 3, or even 4 ply styles for tapestries and wall hangings and use the 3, 4, or 5-ply single or doubled for your heaviest rugs. Remember to twist or braid your warp ends as loose fringes will quickly wear away. Consider the smoother finished warps if your wefts are dark in color because the coarser linen may fluff off a bit and leave lighter bits on the rug's surface. On lighter wefts it won't be noticeable.

Rep Weave and Beyond

Joanne Tallarovic

Finally a great new book on Rep weave. Often associated with rag rugs, traditional Swedish ripsmatta (or Scandinavian rep weave) is a simple weave structure in which the warp almost completely covers the weft. This book combines blocks in an unexpected ways and introduces evocative contemporary colorways. What you've been looking for! 128 pg. (paper, color)

Care: These cotton yarns may be machine washed and dried. Use cold/warm water and no bleach on the colors. Darker colors may not be totally color fast. As always, when using highly contrasting colors we recommend sampling and washing. If bleeding is a problem, skein and pre-wash the yarn until wash water runs clear and hang to dry. All colors will soften with prolonged exposure to light and repeated washings.

Braidkin - Lacer

For years, rug braiders have turned to Braid-Aid for high quality braiding tools. All Braid-Aid tools are constructed of tempered steel and zinc plated for smoothness and long life. Until 1947 when the Braidkin was introduced all rugs were sewn together with thread and needle, a slow, painstaking effort. The Braidkin needle has an exact curve and tip shaped to insert under the loops of braid with ease and speed. The width and flatness keeps it from rolling or turning as you lace; and the double eye prevents thread from slipping. Great for use in knitting and weaving too!

Item 322 - Ashford Spinning Fiber

Brighten your spinning supplies with colorful New Zealand sliver. Ashford's 100% corriedale wool is available in a wide assortment of colors – ready for spinning, blending and felting. Beginning spinners will love this fiber. Due to its natural crimp, corriedale won't slip through their fingers quite so quickly. More experienced spinners will enjoy playing and plying with the wide range of available colors. Mix and match solid colors to create subtle heathers or rainbow colored designer yarns. Glorious colors are always a treat for felters. They can be felted alone or blended together to create unique colors. Sold by the ounce, Ashford fiber is ideal for felting picturesque scenes, masks, toys or any project in which you need only a small amount of a specific color.

Item 343 - Silk Noil

Silk noil is the perfect choice when you want to add texture to your yarn. When spinning you will find the characteristics of this fiber to be very similar to those of cotton. Be sure to put enough twist in your yarn to insure its strength. Silk noil is short knots of fiber gathered from the inner part of silk cocoons. It can be spun alone or try blending it with other fibers. If you are looking for a wider color palette, you will be happy to know silk noil dyes well. We recommend using the Wash Fast Acid or Country Classic dyes. (see our dyes at www.halcyonyarn.com)

Item 342 - Cultivated Silk Top

Cultivated silk is the finest of all fibers. Cultivated silk worms, *Bombyx mori*, eat only mulberry leaves, which contain very little tannin, so their fibers are beautifully white. Perfect for dyeing, blending and spinning. *Knitters take note:* Consider blending silk with wool or camel down for a more "knittable" yarn, or use textured stitches and cables to help your piece hold its shape. 100% silk yarn tends to lose shape when knitted because silk fibers have very little elasticity. *Silk Worms*, a children's book by Sylvia A. Johnson, is an incredible source of information on the natural history of the silk worm – great for kids of all ages, Halcyon Yarn item #49180000.

Item 331 - 334 - Alpaca Top

Alpacas are domesticated animals of the South American Andes. Their fiber is stronger than most wools and has a silky soft touch. Due to its strength, garments made from alpaca wear well. Staple lengths range from 8–18 inches. For a lofty yarn hold your fiber loosely and add just enough twist to keep the fiber together. Too much twist and your yarn will become wiry. Halcyon's alpaca is available in four colors: item 331 – medium brown, item 332 – black, item 333 – white, & item 334 – silver.

Item 352 – 354 Kid Mohair, Mohair Top, Mohair Locks

Mohair is the shorn fleece of the angora goat. Although natives of the Ankara province of Turkey, angora goats were exported to Australia, America, and the Cape Province of South Africa during the middle of the 19th century. The first clippings produce the finest fiber. Staple lengths range from 4–8 inches. Mohair is very strong and lustrous - perfect for rainbow dyeing. For a soft, silky fiber try Item 352, kid mohair. Doll makers often use item 354, washed mohair locks, to make beautiful wavy doll hair and Santa beards.

Item 372 - Baby Camel Top

A camel's coat has two layers, a downy under layer and an outer layer of coarse guard hairs. The guard hairs are separated from the down which is then made into sliver for spinning. Camel down has a soft, fine texture comparable to merino wool. Fiber lengths range from 2–3 inches.

\$5.01/oz ... 1 lb + \$65.10 ... 5 lbs+ \$56.10

Item 391 - Cashgora Top

Cashgora goats are a crossbreed of Cashmere and Angora goats. In general, their fleece is finer than mohair but coarser than cashmere. Some of the undercoat fibers are fine enough to be considered cashmere. During processing the guard hairs are removed and the undercoat fibers are graded. Staple lengths range from 1–2 inches. Cashgora Top is available in natural white.

\$10.13/oz ... 1 lb + \$131.60 ... 5 lbs+ \$113.40

Item 393 - Super Grade Angora Top

Angora is one of the lightest and finest fibers, second only to cultivated silk. It is also one of the warmest. Angora rabbits, like Angora goats, were first domesticated in the Ankara province of Turkey. They were exported to France and Belgium where they were bred to supply the textile industry during the 19th century. Staple lengths range from 1.5–2.5 inches. When spinning, a limited amount of twist will keep your yarn fluffy.

\$7.86/oz ... 1 lb + \$102.20 ... 5 lbs+ \$88.10

Item 346 - Rayon Top

The soft, smooth fibers of viscose rayon spin into a lustrous yarn. Although silk-like in appearance, rayon is a cellulose fiber chemically similar to cotton. Its soft hand makes it a pleasure to spin. Try it alone or blend rayon with other fibers to add a beautiful sheen. Staple lengths range from 4–5 inches. Rayon takes cold water, fiber reactive dyes well, so you can create unlimited colors.

Item 392 - Chinese Cashmere Top

Item 394 - Light Brown Cashmere

Cashmere, the soft undercoat of cashmere goats, is a true luxury. Since each goat yields less than 4 ounces of cashmere a year it is extremely expensive. The majority of today's cashmere is produced in northwest China and other areas in central Asia. Fiber lengths range from 1–1.5 inches. When spinning, lightly cradle a handful of fiber and use your thumb and forefinger to control the amount of fiber being spun. Our brown is a rare find since most goats are white.

Item 312 - Coopworth Roving

Coopworth is a breed of sheep which results from the inbreeding of Border Leicester and Romney crossbreeds in New Zealand. Coopworth fleece is characteristically silky and easy to spin. The fibers are strong and medium to coarse in texture with wool counts ranging from 46 – 50. Staple lengths range from 4 – 6 inches. We highly recommend Coopworth roving for beginners, because it is carded roving instead of a combed top.

Available in four colors: 1 – natural, 2 – light grey, 3 – medium grey, & 4 – dark grey.

\$1.50/oz ... 1 lb + \$19.30 ... 5+ \$16.60

Item 315 - Fine White Merino Top

Merino is the softest and finest of all wools, with wool counts ranging from 64 – 70 and staple lengths of just over 3 inches. In addition to being very fine, merino fibers have a close tight crimp which gives consistent loft to spun yarn.

\$1.40/oz ... 1 lb + \$17.95 ... 5 lbs+ \$14.95

Item 316 - Corriedale Wool Top

Corriedale sheep dominate the breeding stock of the Falkland Islands, where this wool originates. The shorn wool is shipped to England where it is combed into top. Corriedale wool is relatively fine, having a wool count between 50 – 56 and staple lengths ranging from 4 – 5 inches.

Item 301 - Shetland Top

Shetland is a soft, downy shortwool believed to have originated in Scandinavia. Today, the breed is most often found on the Shetland Islands. The staple length ranges from 2 to 5 inches. It is well suited for spinning fine yarns, making it perfect for lace knitting. It felts very well. In fact, caution should be taken when washing items made from shetland because irreversible damage can be done. Shetland fleeces are available in a wide range of natural colors. Colors available in top are 1 – white & 2 – grey. *Also see item # 356, Shetland Moorit.*

Specialty Breeds

Fibers

Item 356 - Shetland Moorit

Shetland fleeces occur in a wide range of natural colors, we feature the medium brown moorit color. With staple lengths ranging from 2 to 5 inches it is well suited for spinning fine yarns, making it perfect for lace knitting. It felts very well. In fact, caution should be taken when washing items made from shetland because irreversible damage can be done.

\$1.97/oz ... 1 lb+ \$25.60 ... 5 lb+ \$22.00

Item 355 - Brown Select Jacob

Jacobs are known for their distinctive spotted white and brown fleece. Staple lengths range from 3 – 6 inches. The amount of white verses brown varies depending upon the individual sheep. At birth the brown is most intense and gradually lightens as the sheep ages. Jacob is known for being lofty and semi-lustrous. Because of its unique characteristics, Jacob is in high demand by handspinners. We feature the dark brown fleece.

\$1.75/oz ... 1 lb+ \$20.95 ... 5 lbs+ \$17.95

Item 358 - Bluefaced Leicester, Natural Brown

The same great characteristics as the ecru Bluefaced Leicester in a light brown.

\$2.22/oz ... 1 lb+ \$28.70 ... 5 lbs+ \$24.70

Item 313 - Blue Face Leicester Top

Bluefaced Leicester is a fine, semi-lustrous longwool with a staple length that ranges from 3 – 6 inches. It originated from the Border Leicester breed. Their name comes from the fact that the skin on their head that shows through their fleece is a dark blue color. Yarns spun from this breed are very soft, yet strong.

\$1.62/oz ... 1 lb+ \$21.10 ... 5 lbs+ \$18.20

Item 311 - Wensleydale Longwool Top, Ecru

With such wonderful characteristics as lustrous sheen and smooth long locks, it's no wonder Wensleydale is a favorite among spinners. The average staple length ranges from 8 – 12 inches. It is well suited for spinning from the fold or you can simply pre-daft and spin. Since Wensleydale has a tendency to spin into a fairly dense yarn, you may want to blend it with another wool top. Yarns spun from Wensleydale wear extremely well, making it a logical choice for items that get heavy use, such as socks and mittens.

\$1.77/oz ... 1 lb+ \$23.00 ... 5 lbs+ \$19.80

Item 308 - Lincoln Top

Biggest of the British breeds, Lincolns have a broad white face and woolly forelock as well as white woolly legs. Staple length is 6 – 14 inches and fiber micron count is 33 – 41. Lincoln wool is very lustrous and wavy, but like many longwools it is slightly coarser. A great wool for dyeing, it produces true and vibrant colors.

\$1.48/oz ... 1 lb + \$19.25 ... 5 lbs+ \$16.50

Item 307 - Finn

Finn or Finnsheep originated in Finland. The wool is known for being lustrous, soft and fine. Yarn spun from Finn is suitable for multiple projects such as sweaters and throws to hats and mittens. The micron count ranges from 24 – 31 and the staple length from 3 – 6 inches.

\$1.62/oz ... 1 lb+ \$21.10 ... 5 lb+ \$18.10

Item 302 - Black Welsh Top

Remarkable for its all black fleece. Black Welsh fleece is coarse to medium with moderate luster and good loft. Due to its coarseness this fleece is suitable for outerwear, upholstery fabric or rugs. Staple length is 3 – 4 inches.

Item 387 - Euroflax Linen 7 oz Stricks

Our flax line comes from Belgium, renowned for the highest quality long line flax in the world. The flax line has a fiber length of two to three feet and is ready to be mounted on a distaff. Flax can be spun wet or dry to produce linen yarn. Dew wetted.

\$19.95/strick ... 5 stricks+ \$16.95 ... 40+ \$13.95

Item 385 & 386 - Bleached and Natural Flax Roving

Flax top is a combed fiber preparation made from flax tow – the short fibers (2 – 4”) which remain in the hackles after preparing the line. Flax top is easy to spin and does not require a distaff. Linen yarn spun from flax top is great to use as weaving weft or for knitting. The inherent luster of the linen yarn is due to the natural wax content of flax fibers. Euroflax top is available in bleached white and natural.

ITEM 385 BLEACHED FLAX ROVING **\$2.84/oz ... 1 lb+ \$36.90 ... 5 lbs+ \$31.80**

ITEM 386 NATURAL FLAX ROVING **\$2.70/oz ... 1 lb+ \$35.10 ... 5 lbs+ \$30.20**

Item 367 & 368 - Natural and White Soysilk®

Amazing cutting edge fiber made from soy beans. This environmentally friendly fiber is produced from the waste of Tofu manufacturing. It looks like tussah silk and is a dream to spin – but much less expensive!

ITEM 367 NATURAL SOYSILK **\$2.16/oz ... 1 lb+ \$28.50 ... 5 lb+ \$24.40**

ITEM 368 WHITE SOYSILK **\$2.48/oz ... 1 lb+ \$32.20 ... 5 lbs+ \$27.70**

Item 362 - Hemp Sliver

A piece of hemp fabric dating back to about 8,000 B.C. is one of the oldest human relics ever discovered. Hemp fiber is longer, stronger, and provides more insulation than cotton. Hemp fiber is extremely durable and is farmed using much gentler environmental practices than cotton.

\$2.16/oz ... 1lb+ \$25.40 ... 5lbs+ \$21.80

Item 360 - Ingeo

Spun in the USA, Ingeo is made from corn. The poly lactic acid is removed from the corn and processed into a liquid. The liquid is then extruded into long continuous fibers, cut, and made into top form. Ingeo is sharp white in color, soft and shiny. The long staple makes it easy to spin.

\$1.81/oz ... 1lb+ \$23.40 ... 5lbs+ \$20.20

Item 361 - Bamboo Top

Bamboo fiber is made by grinding, wringing, and then combing the actual pulp from bamboo plants. Nothing else is added to the fiber...just bamboo! In hand, this fiber is cool, silky soft, and spins easily making a luxurious yarn to knit or weave.

\$4.18/oz ... 1lb+ \$54.50 ... 5lbs+ \$47.00

Item 390 - White Ramie Top

This vegetable fiber comes from the plant known as “China grass” or Rhea, technically *Boehmeria nivea*. The plant grows primarily in China. Ramie fibers come from the inner portions of the plant bark. In processing, the fibers are degummed, bleached and combed. Ramie fibers are the strongest of all vegetable fibers. They are typically spun for weaving table linens because they lack elasticity.

\$1.94/oz ... 1 lb+ \$25.20 ... 5 lbs+ \$21.70

Item 359 - Bamboo Fiber

Bamboo is a quick growing plant whose fiber is soft and naturally antibacterial! Create designer style yarns by blending this bamboo fiber with natural or dyed wools. Bamboo adds a unique sheen, gentle slubs and softness creating a yarn with a beautiful look and drape.

\$1.81/oz ... 1 lb+ \$23.50 ... 5 lb+ \$20.20

Marvelous Merinos

Fibers

Item 325 - Merino Top

Merino, perhaps one of the finest of all sheep breeds, is a treat to handle. Its extreme softness makes it a great choice for baby wear, or any item that will be worn next to the skin. And don't forget felting! Merino produces a very firm felt which is usually very smooth and finished in appearance. It's a great choice for Nuno felt.

Dyed Merino Top is available in 15 colors: 10 - Royal Blue, 9 - Purple, 11 - Red, 14 - Apricot, 16 - Mint, 12 - Tartan Green, 4 - Teal, 2 - Navy, 18 - Mauve, 6 - Salmon, 3 - Lavender, 13 - Dusty Plum, 17 - Bottle Green, 5 - Black, 15 - Brown

\$2.13/oz ... 1 lb+ \$27.30 ... 5 lbs+ \$23.50

Sample Card: 2332500c - Marvelous Merinos ... \$4.50

Item 321 - Multi-Colored Merino Top

These heathered combinations spin into beautiful yarns. Often times, a roving or top with all the colors of the rainbow looks beautiful, but spins into drab yarn. Not the case here! Highlights and shadows work together creating yarns with which you'll want to knit, crochet and weave. It's another great choice for felting.

Available in 7 subtle shades: 1 - Sandalwood, 2 - Cranberry, 3 - Garnet, 4 - Baltic, 5 - Endicott, 6 - English Garden, 7 - Sage

\$2.48/oz ... 1 lb+ \$32.30 ... 5 lbs+ \$27.80

Item 319 - Superwash Merino Top

Superwash merino top has been treated to smooth the fibers. This process creates a softer and more luxurious fiber which avidly absorbs natural dyes. It is also shrink resistant, machine washable, and less likely to pill than other fibers. It will not felt!

Available in white only.

\$2.10/oz ... 1 lb+ \$26.80 ... 5 lbs+ \$23.10

Shotzee Medium Weight & Amelia Light Weight Drop Spindles

Made in Maine. Beautifully crafted cherry drop spindle. The two pieces are roughed out and joined, then turned on the lathe as a unit to preserve perfect balance for the longest spin. The stick is worked to have stops which prevent that annoying creep of the yarn cone down into the spinner's fingers.

Pluckyfluff: Handspun Revolution

Lexi Boeger

Handspun Revolution is a simply written how-to book for very unusual handspun yarns. Addressing a growing movement of cutting edge spinners, this book discusses the role of creative thinking in the craft of hand spinning. This book covers only the very essential topics of spinning, and these are discussed frankly, casually, and often in the format of tips and notes. Twenty-three original, never before published techniques are covered with easy instructions and beautiful color pictures. Small but powerful!

NEEDLE FELTING FIBERS...for dry felting

Item 309 - Felting Fiber

Our needle felting fiber is carded romney. The fiber is a bit more coarse than the fibers from traditional breeds used in wet felting, such as merino. This is advantageous in needle felting because coarser fiber is less likely to show holes. But don't limit its use to needle felting. It can easily be used in traditional wet felting too. Just be aware that the finished felt will be more rustic in appearance. The fiber is packaged in 1/4 lb bags. **\$6.75/ea ... 5+ \$5.95 ... 50+ \$4.60**
